M 2 :- Practical-8

Roll No.:T017	Name: Radhika Mali
Class:TYIT	Batch:1
Date of Assignment: 23-9-2026	Date/Time of Submission: 23-9-2026

8. JQL & Filters

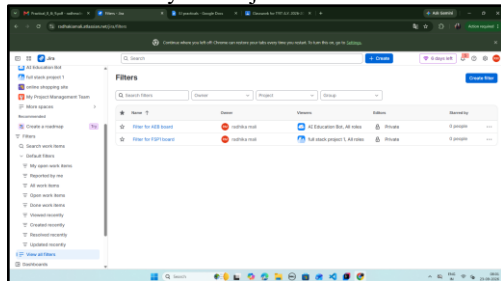

A. Write basic JQL queries (Status, Assignee, Priority).

Theory:

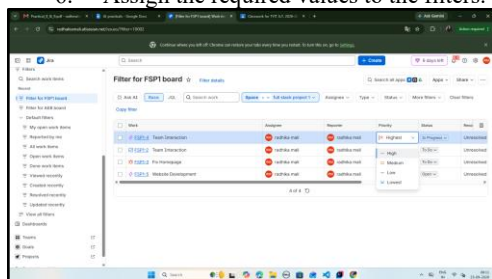

JQL (Jira Query Language) is used to search and filter work items based on fields like **Status**, **Assignee** and **Priority**. Filters can be saved and reused.

Steps:

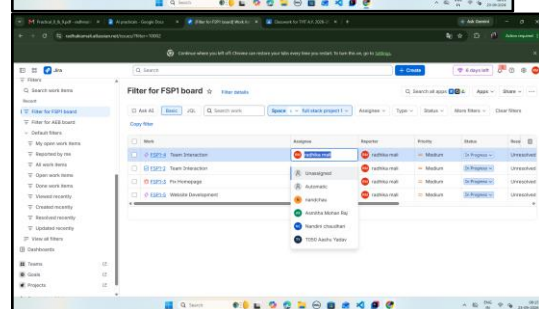

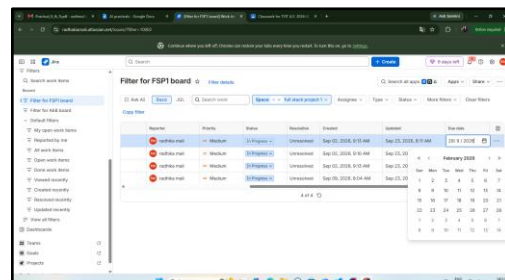

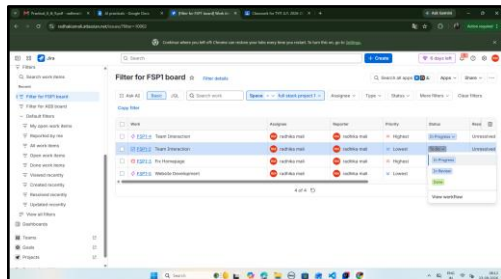

1. Open Jira.
2. Go to Filters from the left pane.
3. Click View all filters.
4. Select your Project.

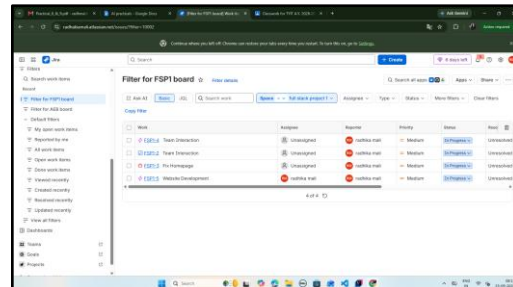

5. Write the required JQL queries using fields such as Status, Assignee and Priority.
6. Assign the required values to the filters.

B. Create and save filters.

7. Click Save filter.

8. Click Save changes.
