Brief Description:

PetCare is a community-focused website designed to help homeless and abandoned pets find safe and loving homes. The platform allows users to explore pets available for adoption, learn about responsible pet care and understand the adoption process.

Key Features:

1. Pet Adoption Directory
2. Pet Care Guide
3. Adoption Process Guide
4. Pet Stories & Gallery
5. Contact / Adoption Enquiry
6. Clear Navigation Menu
7. Responsive Mobile-Friendly Design

Learning Outcomes:

Through this activity, I learned how AI-powered website generation tools can be used to create a complete website. I learned about website planning, UI/UX design, navigation structure, content organization, responsive design and basic frontend interactions. I also learned how technology can be used to create a platform that addresses a real-world social problem.
