Module 2 :- Practical-

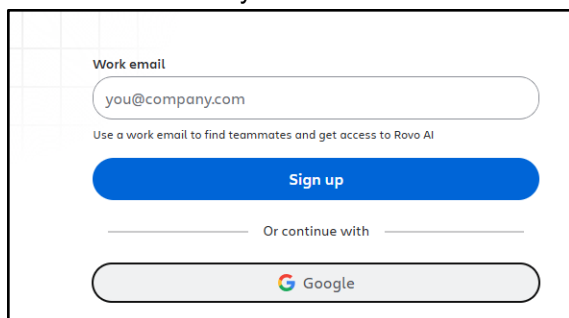

Roll No.:T017	Name: Radhika mali
Class:TYIT	Batch:1
Date of Assignment: 29-8-2026	Date/Time of Submission: 29-8-2026

Prac 1 A Create a Jira Cloud account and explore the dashboard.

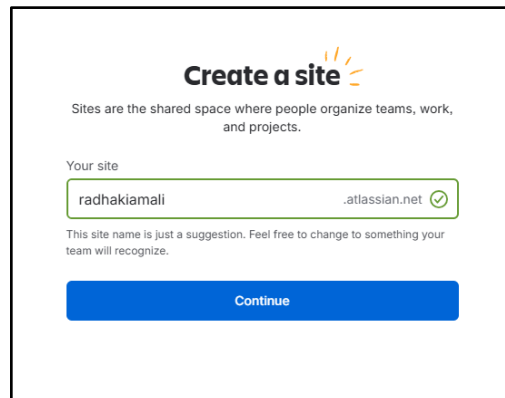

1) Open Google and search for Jira. Open the Jira website to begin the setup.

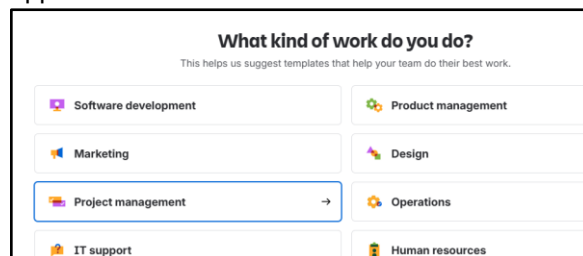

2) Click on Google. Enter the required email/account details and click Continue to create or access your Jira account.

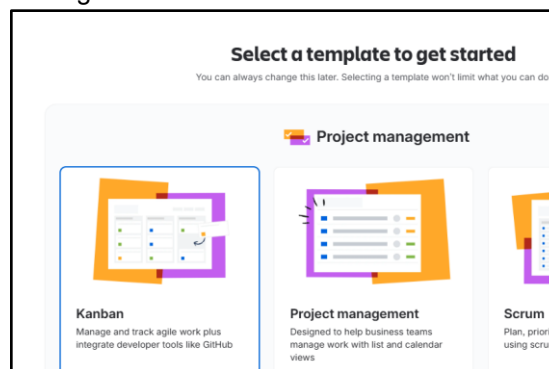

3) Complete the account creation process by following the instructions displayed on the screen.

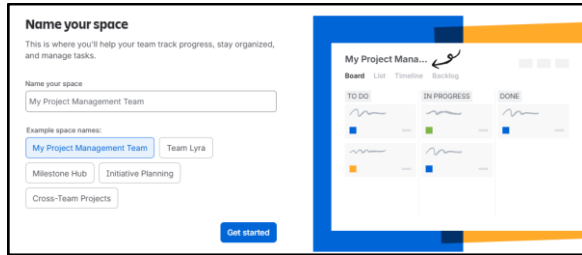

4) Wait for Jira to complete the initial setup. The Getting things ready screen will appear.

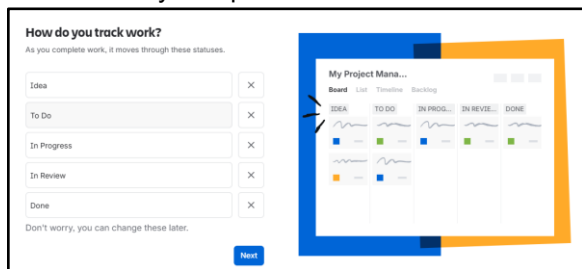

5) Select the type of work you want to manage. For this practical, select Project management.

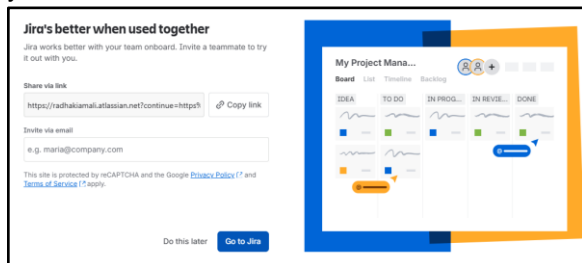

6) From the available project-management templates, select the required template that is Kanban and click Next.

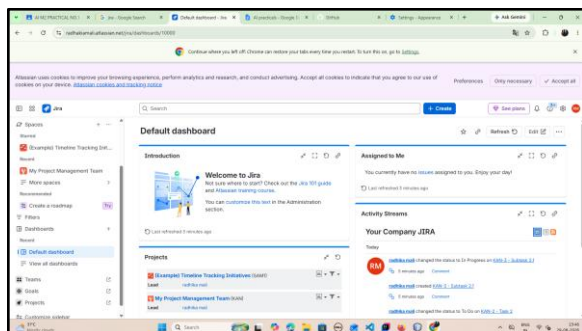

7) Enter a suitable name for your space/project in the Name your space field.

8) Select the appropriate method for tracking your work and click Next.

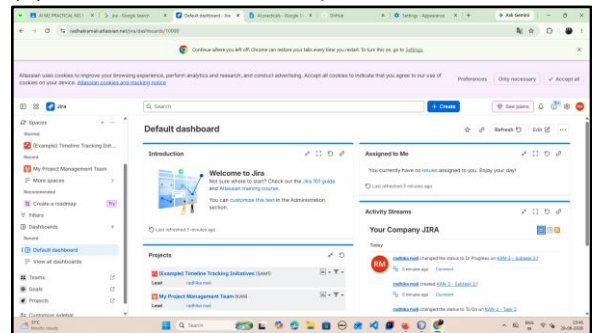

9) After this select the type of work – click next. Click on Go to Jira.

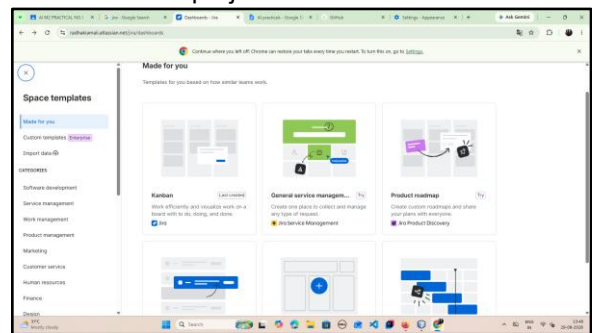

Practical 1B - Create a Company-managed Scrum/Kanban Project.
Step:

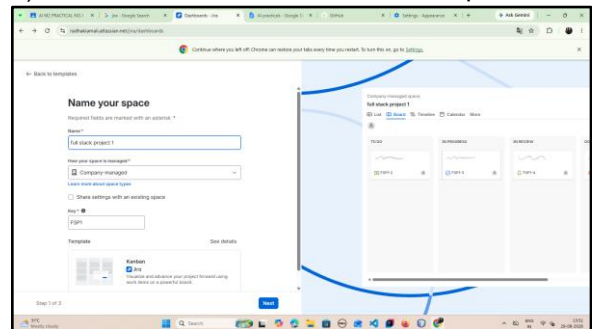

1) From the Jira navigation menu, click Spaces (+) to create or access a space.

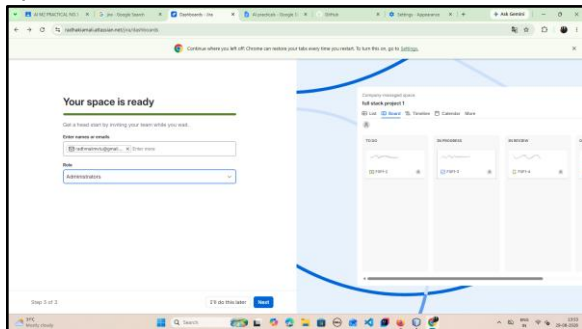

2) Select the Kanban template to create a Kanban-based project.

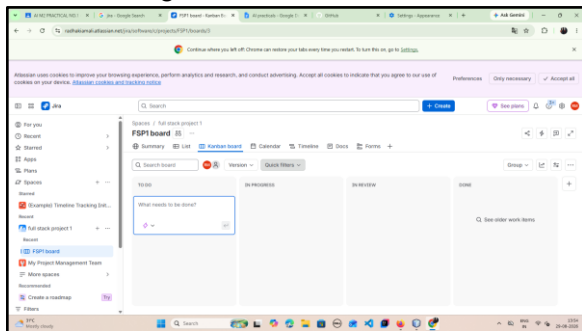

3) Select Kanban and click on use template

4) Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

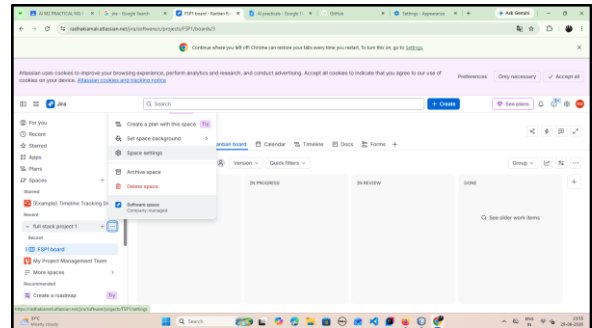

5) After completing the setup, the Kanban Board will appear. The board can be used to create and track tasks through different stages.

Prac 1C - Configure project details Step:

1) Open the created Jira space/project from the navigation menu.

2) Click Space settings to access and manage the configuration options of the Jira space.
